

Net Gun

刑事偵防器材

The most advanced technology with high efficiency and performance

Key Feature_1

Compact, light weight, easy to operate

Made of aluminum alloy,
weights only 850g.

刑事偵防器材

Key Feature_2

Propelled by co2 compressed air, no ammunition is used.

- 12g, universal standard.
- With validity up to 5 years.
- Free from bodily harm.
- The gas bottle is designed to be safe, if inside the car, it won't explode itself even under high temperature during summer time.
- An Ideal non-lethal tool for law enforcement.

12g gas bottle:

Key Feature_3

With the most advanced shooting technology of its kind.

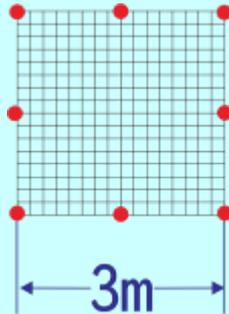

- Allow to target directly to increase shooting accuracy.
- Easy to hit the target 100%.
- Don't need to aim upward like other brands which may miss the target.

Target directly to capture human target or animals .

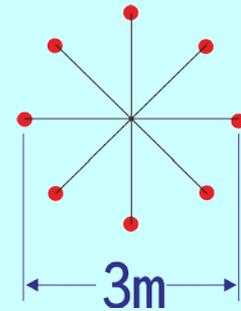

Key Feature_4

Provide reused catch net and training net depends on your purpose.

Catch Net

Training Net

Why our net is better?

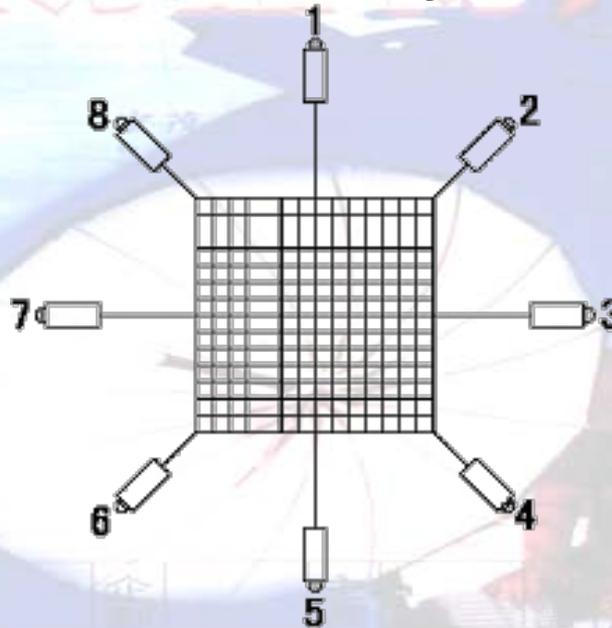

- Made of HDPE fiber, the same material as parachute net to ensure the extreme durability, with ability to endure 20kg of pulling force.
- Ultra slim, high tensile and tangle-free.
- It's designed to be easily reloaded.

Key Feature_5

With 8 weighs on the net-end which can lower down the hitting force to full extent and free from bodily target.

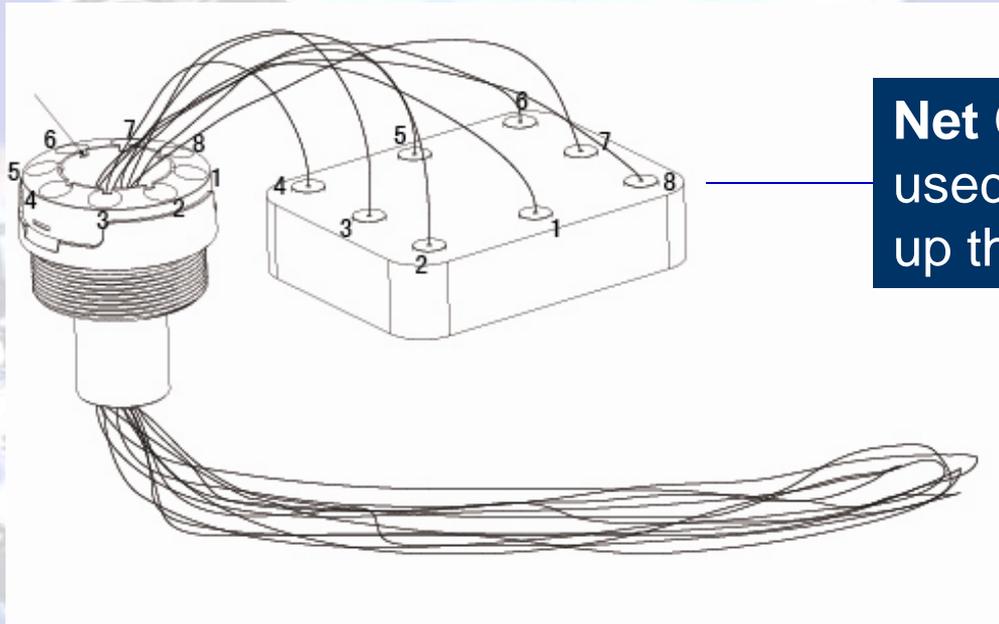

Weight, 15g/pc

Key Feature_6

The supplied net collecting board permits to reload a used net within 10 minutes possible.

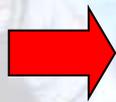

Net Collecting Board:
used as a kit to speed
up the collecting job.

Key Feature_7

Attach quick-release belt clip.

- Convenient to carry when on duty.

Key Feature_8

Use disposable copper piece to control the bursting pressure which makes the kinetic energy and effective range always remain the same.

Copper Piece

Advantage 1_Aiming angle

Catch Me:

Aiming directly at the target,

Strength: High shooting accuracy

Other brands:

Aiming upward to predict an shooting angle.

Weakness: Possibly miss the target.

Aiming Angle Comparison

Catch Me

Other brand

Advantage 2_ Deploy Diverge

Catch Me:

Small shooting diverge.

The net end weights are flying horizontally to avoid to touch the ground.

Other brands:

Large shooting diverge:

The bottom weights flying downward which is subject to touch the ground and lead to immediate drop.

Net material

Catch Me:

Strength: The ultra slim net will reduce the wind blowback that is helpful to run further and faster.

Other brands:

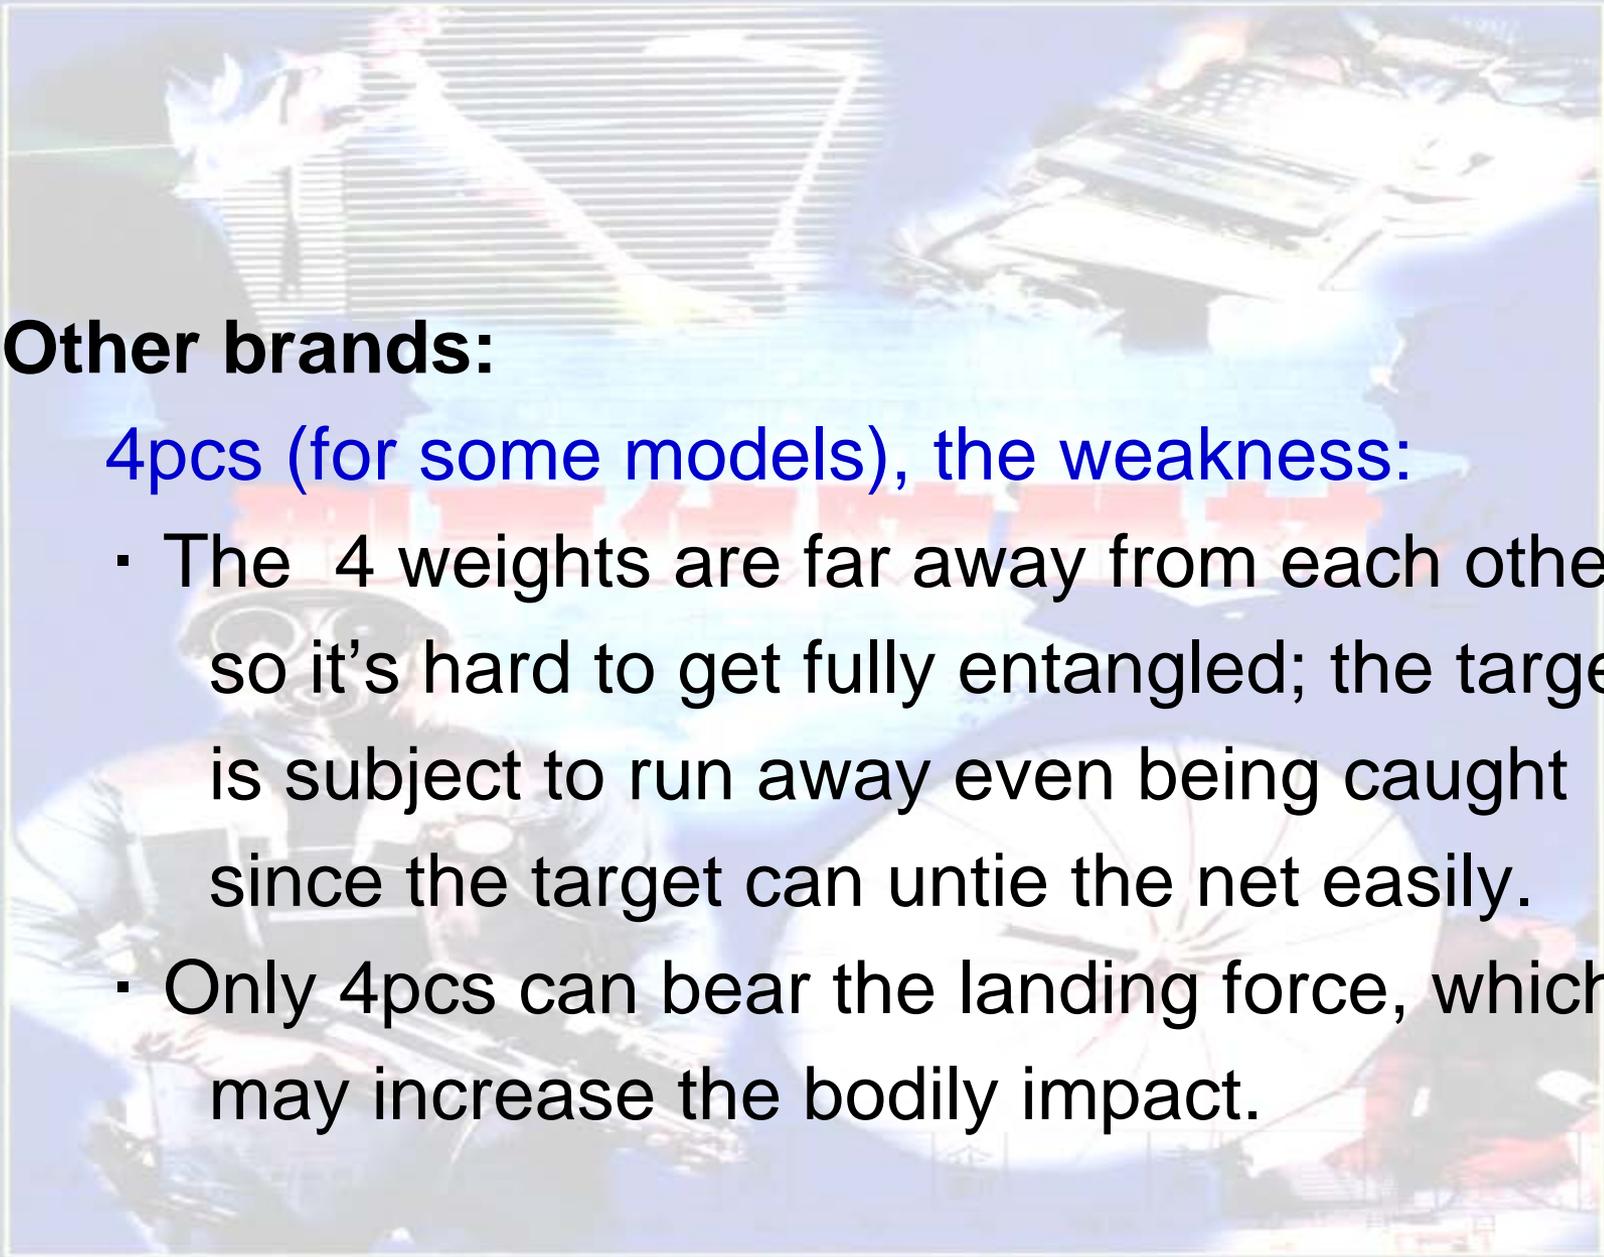

Weakness: the stout rope will increase the wind resistance that is bad for running speed and effective range.

Advantage 3_ Weight

Catch Me:

8 pcs, the strengths:

- The 8pcs of weights are closer to each other which is helpful to grasp the target when fully extended.
- The landing force is averaged by 8pcs of weights with an aim to decrease the body impact to extreme extent.

Other brands:

4pcs (for some models), the weakness:

- The 4 weights are far away from each other, so it's hard to get fully entangled; the target is subject to run away even being caught since the target can untie the net easily.
- Only 4pcs can bear the landing force, which may increase the bodily impact.

Advantage 4_ Reload

Catch Me:

Strength:

Attach various of tools which allows to complete the reloading at 5 minutes by one person possible.

Other brands:

Weakness:

No tools as support, the reloading takes time.

Advantage 5_Belt clip

Catch Me:

Strength:

Attach belt clip, ideal for law enforcement professionals' daily use.

Other brands:

Weakness:

Not available.

Advantage 6_

Bursting pressure controller

Catch Me:

Use disposable copper piece.

Strength:

Very cheap, easy to be replaced.

Other brands:

Use gas valve as stopper.

Weakness:

Cause problem if worn out , and the gas valve is subject to get locked.

Make blasting sound

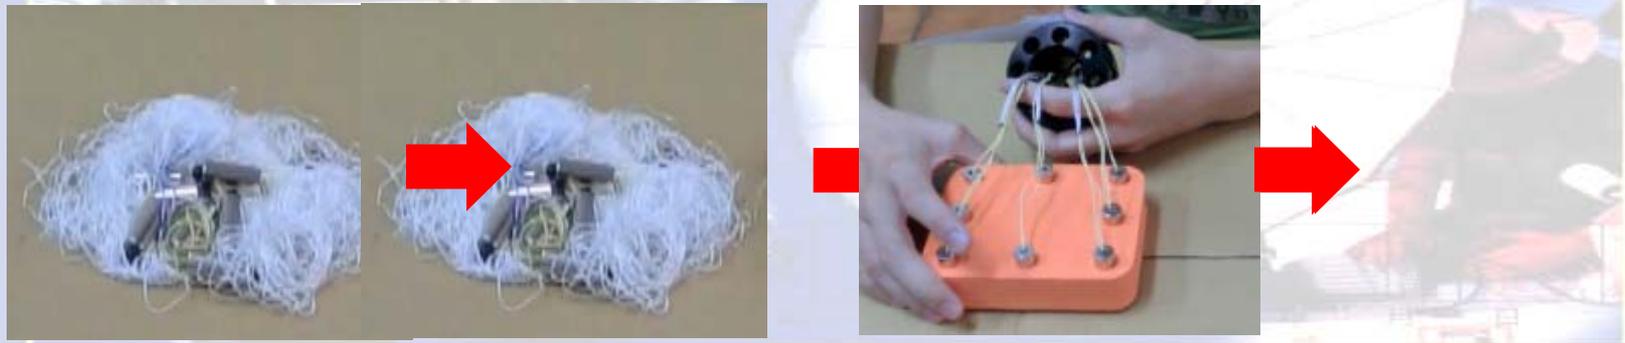

- If no net head is attached, the device can make a big blasting sound to meet intimidating purpose.

Reload the net

- The training net has a same shooting angle as catch net for the beginner to do more practices.
- The training net can be replaced as catch net for practical use.
- After used, the net can be reloaded easily to save your every coin.

Net reloading process
